产品简介

Modularized assembly technology facilitates transport and maintenance.

The max capacity of ZMI1213G mobile impactor crusher is 350t/h, and the max feeding grain size is 600mm.

The smart control systems of ZMI1213G mobile impactor crusher have the function of remote real-time diagnostics & easy process optimization.

The various options that include an additional screen module with a return conveyor, magnetic separator and air blower greatly expand the application.

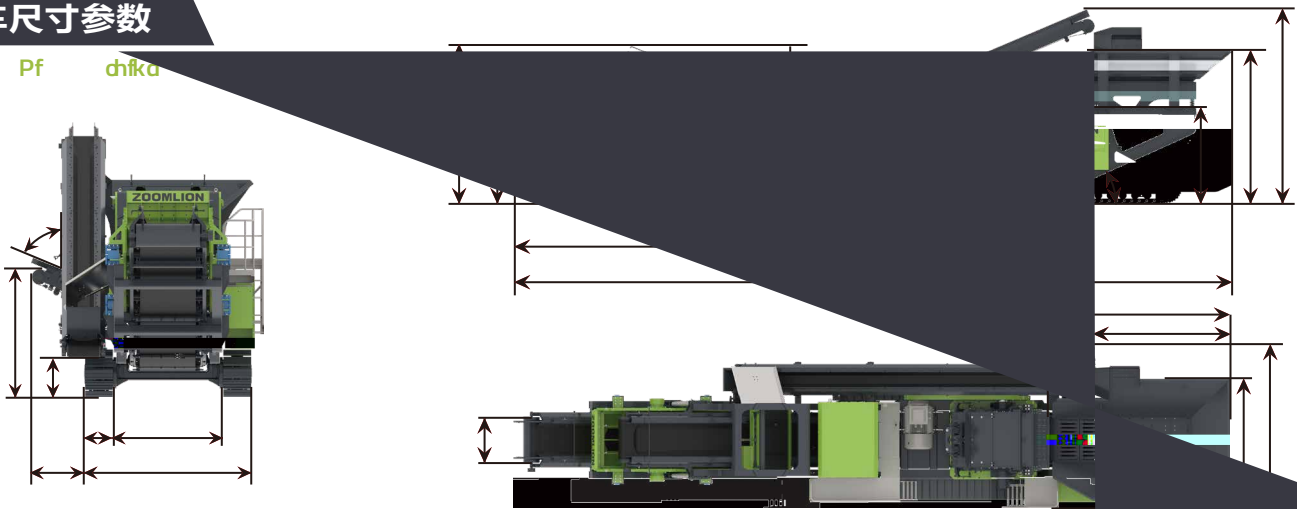

The ZMI1213G mobile impactor crusher is equipped with a load-sensitive hydraulic control system, which has the advantages of low calorific value, less power loss, accurate and safe control.

The core components are provided by industry-leading manufacturers which guarantees the reliability of ZMI1213G mobile impactor crusher.
