ZMS2065G Mobile Screen

2000x6500 mm

150-350 t/h

62.5 kW

ZOOMLION

Modularized assembly technology facilitates transport and maintenance.

Vibrating screen is made of high-strength steel plate, connected by ring-shaped rivet, which ensures steady and reliably working. The equipment is driven by two-sided high-power motors with a large amplitude and high screening efficiency.

The smart control systems of ZMS2065G mobile screen has the function of One-button process start & stop, remote real-time diagnostics & easy process optimization.

All the conveyors can be folded which facilitates transport.

The ZMS2065G mobile screen is equipped with load-sensitive hydraulic control system, which has the advantages of low caloric value, less power loss, accurate and safe control.

The core components are provided by industry-leading manufacturers which guarantees the reliability of ZMS2065G mobile screen.

Main Parameters	Unit	Value
Capacity	t/h	150-350
Screen Size	mm	2000x6500
Screen Area	m ²	13
Number of Screen Mesh Layers	\	3
Transport size Width x Length x Height	m	14.3x3.72x4.12
Engine Power	kW	103
Driving Power	kW	62.5
Total Weight	t	35
Power Type	\
